Subject: Re: Installation

It is almost finished.
Maybe we'll have a few programming fine tuning to do later, but it works

Still on site right now.

yes there is an apple TV connected to the TV connected in WIFI since there is no network cable in the bedroom
(maybe a little bit slow to download HD movies)

best regards

Philippe

Dear Jeffrey,

We are currently installation your equipment and discover that most of you video sources are still analogical, and should really be updated for numerical sources .

We won't have enough analogical input on the receivers if we keep all those old sources.

- 1 - VHS, no more use of VHS tape, can we remove it ?
- 2 - DVD player, very old, i know that i already asked you the question, but investing so much for a new TV and keeping that old player is a non sens. If you don't want the expensive multi region dvd player, can we at least update it for a new model (non multi region)
- 3 - sky decoder : very old analogical, can you please ask your provider for a new model
- 4 - Numericalbe decoder : very old analogical, can you please ask your provider for a new model (since it is in france, we can handle this)

Thanks for your prompt feedback because we are already making the job

Thank you

Philippe
