Subject: Paving Project - July 14, 2014

Greetings Sir,

I contacted Mr. Jeffers of Better Roads just now to obtain his proposed transportation schedule for the paving project. Better Roads and Boyson are to work on coordinating a plan for your review.

Mr. Jeffers said he would need a couple more days because it was just brought to his attention that this project might need a couple of permits.

He is contacting DPNR this morning. He said it should be a very simple process, and he would get back to me in a couple of days.

I will still go forward with contacting Boyson this morning to obtain their proposed schedule.

Respectfully,

Daphne
