Subject: Fw: Southern Trust STEM camp

Jeffrey,

Please see below. This is the last part of the STEM awards. I would like to confirm with the Department. We agreed to \$20K and they have come in at \$19.6K

With warm regards,
Cecile

Dear Mrs. de Jongh,

We have an update on the summer Southern Trust STEM camp. Mrs. Corbett, Educational Technology Coordinator for the St. Thomas/St. John District, did excellent research and made the call to the summer camp to ensure availability.

Dates are August 10-15 at Bentley University outside Boston, MA: Imagination Mini-Camp. Departure flight is August 10th and return flight is on August 15th. We estimate that 8 students plus 1 chaperone can attend.

Estimated costs:

\$2,200 per student (\$620 estimated flight + \$1,425 tuition, room, board + \$75 estimated lab fee + \$80 roundtrip ground transportation)

\$2,000 chaperone (\$620 estimated flight + \$1,300 estimated room and board + \$80 roundtrip ground transportation)

8 students X \$2,200 per student = \$17,600 + 1 chaperone \$2,000 = \$19,600 estimate

Mrs. Corbett has agreed to be the chaperone.

We will proceed with contacting the students upon your word.

Thank you so much!

Michael Harrigan
Deputy Superintendent
St. Thomas/St. John School District
St. Thomas, U.S. Virgin Islands
