good first start, no blue rays we should have apple tvs if they are not already in the system, new crestron for master bedroom. Im not sure of the location of the home theatre screen as the desk and computer are in the way, I think we might have to put in on the long wall.

Dear Jeffrey,  
Please find attached the estimate regarding our last meeting.

I have proposed the 75'' TV for home theater and your bedroom.

I can't find the paper where i wrote the exact available dimension in home theater. I remember 169 cm but i'm not sure. Could you please ask valdson to confirm.

The size of the TV is 167 cm wide. So if i'm correct it fits.

For the guest bedroom, i have a 55'' and a 65'' as we discussed.

Each time i proposed an oppo bluray player, the only multi zone product on the market.

As on option (not included in the total) il proposed to replace the old crestron, with a new small model.

I am waiting for your feedback

Best regards

Philippe
