[2014-0520_ACA Proposal.pdf](#)

Dear Jeffrey,

Thank you for your patience with this...I want to build the All-Star team for you...your project(s) are firm making without a doubt, but more importantly they demand that we preform at the highest level creatively and with utmost professional acumen...a challenge that I welcome.

To that end, attached please find a proposal for the NYC work...you would have a dedicated 3 person team with the goal to complete the work as soon as possible.

Of course, I'd like to do more, and would want to add another team member or members, to address the other projects and dreams that you have.

Take a look and let me know your thoughts...I look forward to the discussion and our future work together!

My best,
Amy
