Subject: Security/Game Theory

Not sure how much the net security stuff is of interest to you, but I'm spending a lot of time on it.

This is an interesting paper in that space

<https://www.cl.cam.ac.uk/~rja14/Papers/book-chapter-agt-1.pdf>

Also enjoyed this one and generally finding Nick Bostrom's thinking interesting

<http://www.fhi.ox.ac.uk/wp-content/uploads/Racing-to-the-precipice-a-model-of-artificial-intelligence-development.pdf>

Hope all is well.

J
