I put Leon on a "do not contact" list in MIT development and had his assigned to us as a donor. Do you know if he wants to be anonymous or wants recognition from MIT officially other than a thank you letter?

Hi. I talked with Richard and Signe today. (Today is Signe's last day with Richard, before she joins us.)

All is good. Leon will be assigned to Richard and me. He will not be contacted by anyone else. He will get a short acknowledgement from Rafael thanking him, that's all.

However, Richard needs to know if Leon wants to be an anonymous donor to MIT, or would want his name on a donor list. Can you ask Jeffrey to ask Leon that? We can make it anonymous easily, unless Leon would like the credit.

If Jeffrey tells you that Leon would like a little love from MIT, we can arrange that too, but right now no one will attempt to visit him, including the president.

Cheers!
