Subject: Hydro seeding

Jeffrey

We can not rent a Hydro seeder in ABQ or Santa Fe

The cost to purchase a 150 gallon Hydro seeder would be estimated \$3500.00, plus shipping and mulch.

The other option is we spread the seed ourselves, noting drought tolerant New Mexico wild grass seed will become available until the end of the month beginning of May.

Also it is recommended not to sows seed until mid May after the last frosts.

Shall we proceed with purchasing a Hydro seeder or not.
