Subject: Space Consolidation Option
[14-001_LittleSt.James_SpaceConsolidation_03.13.2014.pdf](#)

Mr. Epstein:

Attached you will see an option that we think solves all of the issues. We have consolidation the restroom into the main library structure, but it remains only accessible from the deck and not from inside the library. Access to the bathroom from the kitchen and dining table is no longer questionable and is still very discreet. Visually, from the main living spaces, the building looks exactly the same.

We have also proposed grading down the atv parking area 2'-0". This will ensure that it won't be easily visible from the expanded library or the pool area.

Please let me know if this option works for you!

Regards,
