Nightmare here with internet, wifi and phone lines down and sometimes my 3G / roaming doesn't even work. Emails Come through late and even texts only seem to come through late.

Just want to check that below from Janusz is correct regarding replacing the outdoor furn in palm. I can go and sit somewhere with wifi tomorrow and get it done.

Hi [REDACTED], JE asked me to contact you about outside furniture. Some of them are worn out, damaged and need to be replace . Here are pictures of them.

2 lamps

5 side tables 24" x 24"

2 long tables 30" x 54"

1 dining table 42" x 84"

1 sofa

3 chairs

They are from Restoration Hardware - I think.

Janusz.
