Subject: Huffington vs. Forbes

Hi Tyler,

the Huffington article is performing well-- in that it sits consistently on the 1st page. But the positive Forbes we did, is not yet on the 3rd or 4th page.

I'm focusing on doing everything I can to boost it everywhere.

For the AI site, could you send me a server suggestion for hosting it? The address would be:

<http://www.jeffreyepsteinai.com/>

I'll do the content, then will hand over to you to edit/ optimize etc.

Thank you!
