Subject: Question

F,
I'll be in Boston 4/9-13 to judge at the first robotics competition. I'm wanting to stay over for the first night of Passover & realizing, I don't know the Jewish community at all. Any suggestions re: a Seder I might join April 14?

Also will be looking at condos while there...getting a sense of the real estate market...

Had dinner with some of the smartest techies I know Tuesday night. One current MSFT, one former. Wish Bill could hear what the current guy said about the technology - current situation & what needs to happen. MSFT is holding up legacy and missing some important shifts...

Xoxo
