Subject: Re: Library Expansion_Elevation Studies

Good Day Mr. Epstein:

I don't think I received your full response. You were mentioning people eating at the main table or kitchen. Would you like for them to have more direct access to this bathroom? Should this access be covered (are you expecting that they'll be able to move between the kitchen/main table and the bathroom without being exposed to rain, etc.)?

Please let me know of a convenient time for us to meet on site so we can have a walk-through together to clear up any issues and move the project along. Also, any thoughts on the three options that I sent regarding the front elevation/circulation?

Mr. Epstein:

Please clarify. From the back porch (the porch on the side of the pool), there is an unobstructed path to the bathroom. Do you want me to explore options where the restroom can be directly accessed from the back porch? At first glance this is possible but will require a little demolition (for door opening) and reconfiguration of existing bathroom.

Mr. Epstein:

Please see the attached drawings for your review. They include both plan and 3d/elevation studies, showing 3 different options for your consideration.

Have a great weekend!
