the four tiles are good

..i made some design using JE. in the first picture there are four tiles but inside of each tile is JE the image in the mirror..left right up down.., then if we put together we get the design (the second picture). we could do the writing with gold leaf or another color and then inside the letters we can fill with other color something.. like i did in the right corner up(the second picture)

i checked for turkish tiles but they are very complicated and it would take forever to do even one tile..

another idea (you mentioned once about leather..) ..maybe some leather like you have in the dinning room in new york, with gold leaf on top.., then put some color and wipe it off and you get only the design with gold leaf...i did some samples once in the dinning room...

what do you think?

if it is tile like they should look like very very thick lines of grout, in between not designed,, you need to look at the turkish blue, this is not right. much more red needed in them

in the fir three pictures the background blue looks real. i wanted in the end to put some transparent light color on top of blue and letters to be in the same family with the entire room. are you thinking to a different blue?

.....
the forth and fifth picture i made the letters smaller. ("a"- four rows, "b" - five rows)

.....
the last picture: maybe you can print it and draw the letters and then send it back to me so i can see how would you like the letters..
