This is submitted (included anchors to Edge, Science, MRA, and .ORG). Also added an image and quotes , etc. The live time is tomorrow at 3AM.

I was going to link to Harvard instead of Edge but that is not live yet. So long as Harvard is live by next Tuesday I believe we can stick both Harvard and Edge on first page in 14-20 days.

Having you on Nat Geo to reinforce will be key, and will keep future costs down for supporting our ideal rankings

Looking forward to feedback from Mr. Epstein to confirm we can continue to submit to Nat Geo.. doing everything we can that doesn't have a hard expense until we hear back.
