I am contacting many users of this model, and checking if they had any similar issues with the boat.

I will come back asap.

Best regards
Adam Zykowski

both the island personnel and mr epstein have had many cabin ribs over the years. this is nothing like anything either mr esptein or his experienced crew have ever heard . It is virtually impossible to drive it without head phones on and the pounding is extraordinary. the boat today is useless to both mr esptein and his island. it is not merely the sound but the pounding of the boat as it moves through the seas.

Dear Rich,

Following our phone discussion with Mr. Epstein, I would like to inform that before we send somebody to USVI, we ask you to carry out the following activities:

1. Please send a picture of the boat laying on the water taken from the side - so we see the trim of the boat
2. Please check if the bilge plug (in the lowest point of the transom) is correctly fitted - that there is no water ingress

3. As I understood, the boat is making noise even when it is not cruising?
4. I also understood that you had covered the entrance to the bow compartment in order to check if the sound difference?
5. Please send the model of Yamaha engines mounted on the boat

If the video's sent by you few days ago give the actual sound reception, then this sound is not untypical for a RIB cabin boat.

However in order to soundproof the cabin, we suggest to cover the place where you stand in the bow compartment with a foam block and additionally mount a door at the entrance.

Best regards
Adam Zygowski
