We are looking at [REDACTED] <http://news.nationalgeographic.com>

Please send over [REDACTED]  
based on reviewing the site

This will juice up with your Google+ and also provide us free supporting links from a very strong domain for Mr. Epstein. Both help us and are long-term supporters.

Once we get one site down it will be easier to add more... a few of these will yield a great long term strategy for maintaining healthy search results. Excited this is a direction we can pursue.

Best,

Tyler
