Subject: Join a once-in-a-lifetime Mount Sinai presentation
[2.19.14 Palm Beach Event Invitation.pdf](#)

I am writing to invite you to a very special and intimate event taking place in Palm Beach at The Palm Beach Country Club on February 19th from 3 – 5 pm hosted by Mount Sinai Health System Trustees Mike Minikes and Joe Plumeri. Our President and CEO Dr. Ken Davis will lead a discussion with three of Mount Sinai's experts recently featured in *Esquire* and *CBS Morning Show* in the field of Personalized Therapy, Drs. Eric Schadt, Ross Cagan, and Daniel Labow, who are revolutionizing the way diseases are diagnosed and treated.

If you will be in the area at that time, we would love it if you could join us. Bringing Drs. Schadt, Cagan and Labow together presents a rare opportunity to get an insider's view of cutting-edge science – science that is changing lives, and happening only at Mount Sinai. I have attached the invitation here for your convenience.

I am including a link below to the *CBS Morning Show* interview and to the very compelling article in last month's *Esquire* illustrating what this work can mean for our patients. The article, "Patient Zero," describes how Dr. Schadt's team with Mount Sinai colleagues – including Dr. Cagan and Dr. Labow – are pioneering an innovative approach to treatment for Stephanie Lee, an Iraq war widow facing terminal cancer. Stephanie will be on the panel along with the reporters of the article, Mark Warren and Tom Junod.
