All suggested dates appear to be ok for you...did I need to do anything with this?

For me, Feb 8,9 is okay, though I prefer March 8,9 and Apr 12,13.

Neil,

Those weekends are all fine with me.

Not sure if it matters, but I have a conflict on Fri Feb. 7. Can you be more precise about timing? Is this a weekend or a long weekend? I.e. would we fly out on Fri or Sat?

Since nothing is scheduled yet, let's find a clear weekend that works for everyone.

I can still do the four options below.

If Ed could would miss Feb 22, how about the other three options for everyone.

Jeff and I discussed a potential larger focus for the weekend: planning a build-a-brain project. That of course has many potential meanings, but I like the challenge, and within that deception would be a subsystem to design or emerge. My personal interest would be the physical computational

substrate for consciousness.

Neil

Am in SF on the 22nd wrapping up a meeting, but could come over that afternoon and be there for the 23rd.

Ed

For a Mathematics of Deception weekend retreat in sunnier climes (Jeff's island), we could all do Feb 8,9, 22,23, Mar 8,9, Apr 12,13. How are

those

options for you?

Neil
