Hi Tyler,

attached is the list of site domains for the 2013 recipients. I'll send you who's agreed to host Jeffrey's sites this week.

attached also is the article on the Elton John AIDS Foundation. Could you send it out as a press release but also for placement as a feature? can you embed the science website and the Forbes article?

I can edit based on whatever the editors want.

where are we with feature placement? (tumor article etc?)

thank you,
