We researched the surfacing options which either can be a standard hard concrete court or cushioned hard concrete court

See link for more details and process of applications of each surface:

<http://www.fast-dry.com/newCons-hard-concre.php>

Options for you to choose from are as follows:

- 1) Quote 1: 3,027.60 - Materials for Court Surface including lines and accessories with 2 coats of Enviro Coat Ready to Use coating (no cushion as this is a traditional hard court)
- 2) Quote 2: 8,856.60 - Materials for Court Surface including lines and accessories with 6 coats in total: 1 coat of Enviro Fill, 3 coats of Enviro Cushion I and 2 coats of Enviro Coat Ready to Use coating
- 3) Quote 3: 24,807.10 - Materials for Court Surface including lines and accessories with 12 coats in total: 1 coat of Enviro Fill, 6 coats of Enviro Cushion II, 3 coats of Enviro Cushion I and 2 coats of Enviro Coat Ready to Use coating

4) Danny Quote from Paint Depot 4,350.00

Material is Tru Flex Finish - Green TRC 081 which he plans to apply 3 coats

<http://www.ketoneindustrial.com/proddetail.php?prod=TRC-081>

It appears that Danny only sourced the coating and did not take into consideration any thing else such as tape, lines, paint, etc

Please advise on the following:

a) Tennis Court Inbounds and Outbounds Colors

<http://tennisnets.org/colorchooser.htm>

b) Option 1, 2, 3, or 4 above

Richard and Daphne,

Attached are the three proposals and the article on the first steps to build a good tennis court you requested. The three quotes are as follows:

1. Acrylic sport coatings only.
2. 3 coats of cushion and sport coatings.
3. 9 coats of cushion and sport coatings.

Make sure we talk before you pour the slab.

Please let me know if there is anything else I can do for you.

Thanks,

Mark Montemayor
