Subject: website placement

Hi Tyler,

Below is the list of 2013 recipient organizations that I have been calling to get us listed on their websites: I'll send you all of their domains tomorrow and the results shortly. A lot are away until after the 1st. I'm asking them to host the <http://www.jeffreyepsteinscience.com/> site.

I'm surprised that the Huffington would be interested in the melanoma piece-- it's a straight press release-- not that informative. However the tumor article is... and can be easily expanded. Can we push this one?

I'll send you another press release tomorrow-- and would like to embed the science website.

Can we talk tomorrow to revise optimizing the science site? I'd like to get a 4th website back on the 1st page. Is 11am a good time?

Thank you!
