This was harder than I expected.

Larry should come up with an email to Melinda explaining briefly why the \$20M is important.

I am hopeful she will say yes but I cannot guarantee it.

This is the last time we will be able to ask for any addition leeway during the next few months.

Hope that you had a great vacation and a start of a New Year.

I am now spending most of time thinking about the investment strategy, reading various market reports and writing a PPM.

My goal is to have all of investment documents finalized by the end of this month. In a mean time, I am further soft circling potential LPs.

Did you have chance to discuss a possibility of increasing the amount you could invest in a fund?

As I mentioned you that would be super helpful as no LP will come up with more than you – so it makes fund rising much more difficult.

Because of that and few other reasons (confidence of Yuri and the other investors etc) it would be great help if you can do it.

I told Yuri that I would discuss it with you and he is now waiting.

Please let me know your decision.

Thank you for considering.

Boris
