Subject: Pool Control at Zorro

Per Brice:

The existing/original pool controller is failing.

This controller operates pool and spa functions such as programmed cycles for heat, filters, remote spa jet, blower controls and lights

As of date the pool heater will not operate in either program mode or service/manual mode, pool temp is 70 degrees.

Remaining functions could fail at any time.

Brice sourced and i negotiated with vendor Pool Source for Materials, Labor and 2 Maintenance Kits

Warranty for all equipment and labor is one year

Original quoted price with sales tax 9,220.49

I was able to negotiate to 7,490.00 and work will be completed before your arrival on December 10th

Materials 3500

Labor 3500

Total 7000

Sales Tax 490

Total Cost 7,490
