Jeffrey,

Dan from Eric's shop indicates there is no provisions for Headphones to work with this system, both Ledge Headphone jacks and wireless headphones will not operate.

- Fwd monitor will be changed to HD type.
- Fwd monitor will have Fwd facing camera displayed in HD.
- Fwd monitor will have airshow displayed.

Credenza will have carry on 32" monitor

- input- APPLE TV JailBroken to display all movies on IPAD regardless of internet connection
- BlueRay Player for carry on Monitor.
- Input for IPAD video playback?

Two Bose systems, one for fwd listening of VIP Music, other system for L/H and R/H speakers on Credenza.
TWO Bose subwoofers located in existing location of current Subs.

- Need to make sure Wood veneer covers all of the Sub woofers, and only AIR port hole is exposed to cabin.
- Dock at VIP seat will utilize Lightning plug for music playback, to Both BOSE systems.
- Bose systems will be able to play music via FWD system and Credenza speaker system at the same time, to fill the cabin.

Eric, does this sound correct?

thank you
Larry
