Eric and Jay,

The loads affected are as follows:
Left Main DC 9.56 Amps Available Currently
Right Main DC 13.58 Amps Available Currently

IF YOU REMOVE THE ADDED 24 to 12vdc Converters (Two) 2
Each you will then have:
Left Main DC 9.56 Amps
Right Main DC 73.58 Amps

The cabin 60hz Converter has no more available power to
provide, you have 25 Amps connected to this for LH
and RH Outlets and Microwave Oven.

Thanks,

JIM
