Subject: follow up

Hi Mark,

So what happened with my request to get job employment/status from Jeffrey? I Just Spoke with Jeffrey Directly and he says you never mentioned this to him.

This is a concern to me because Jeffrey just told me everything is ok.

The reason I am concerned is there are many projects in motion and we need very specific understanding and who is part of the team to deliver solutions.

So please update me on

the Zorro Project

-theater and gym

6th floor 71st street

-movie av system

I have to ask directly: who is telling you that "i am out"

As I think you understand from having worked with me @ 71st last week, not only does it take a lot of knowledge to do the job, but in Mr Epstein's case knowing the properties is incredibly important (the airport fell behind the printer) one of a maze of them.

Point is the team works best when the job order from Jeffrey is understood and it is critical that we resolve issues in a un-ambiguos way.

As of right now my understanding is I am on the team, I just heard this directly from JE.

So whoever my detractors are they are not in charge JE is.

If you think it is needed I am more than happy to have a face to face meeting on this.

thank you

Scott Denett
