Greetings Mr. Epstein,

Below is the only email that I have received from Ken Holmes regarding the purple grasses recently - November 5, 3 weeks ago. I checked my Spam folder and did a search, and found nothing from Ken from last week as he wrote to you. I just called Ken, told him I did not receive the email he says he sent to me and Chris last week (he says he has been having trouble with his phone) and asked for the specifics of the grass delivery:

The grasses will sail from PR on 12/4 at the latest - EDA on STT 12/6. He will probably fly over to STT to clear it himself as it is shipping under his name. The grasses will be on pallets - 5-6 pallets - which should hold in the Ford F-450.

If he can get an earlier sailing date he will let you know.

Respectfully,

Daphne

Daphne,

I believe I've located the replacement grasses for LSJ- will see them this Thurs. and will follow up with you and Chris then.

Thanks,

Kenneth Holmes
