Dear Mrs. deJongh,

This is the higher-end MS Windows Tablet. The base model quote (similar to what I referred to last week) is forthcoming.

Mike

Michael Harrigan

Deputy Superintendent

St. Thomas/St. John School District

St. Thomas, U.S. Virgin Islands

MH,

Please see that attached invoice from PCMALLGOV. You will notice that the cost per machine is \$998. After speaking with Damien it was determined that the **MS Surface Pro 2** with the full version of Windows 8.1 was the best option for the loading of additional software such as MS OFFICE and other network configurations. I've also included the spec sheet below for your knowledge and sharing.

Processor(s)	
Processor Mfr	Intel
Processor	Core i5 4th generation
Magnetic/Optical Drives
