Subject: Samson Dome project - December 23, 2013

Greetings Mr. Epstein,
The update from Mr. Samuel is they are still working on the framework for your dome. The weather has set them back.

I asked him if January 7, 2014 was still the completion date for the dome. He is not certain at this point, but asked if I could call him back on Monday, 12/30, and he should be able to give me a more precise answer.

Respectfully,

Daphne
