Sounds like he have up of me ... Shoot, why he had to write it right before my exam ;(
Here is an attached example of rec letter from my teacher . It is only an example of the
contentment . It unfinished letter . It should also have the name of an organization a person
works for , his signature and seal . It should be enveloped with seal too. However, a person
who will write does not know me so he can write that I was a volunteer or something like
that and describe some my basic qualities . I need it by today- tomorrow but if I bring a week
later should not change the weather. I will need 3 copies (just incase for the future)
Thank you very much . I will be at the house after my exam to help . See you soon !
