Title: Wolfram Insider for Education—News on Mathematica, Resources, and Events: Issue 8, 2013

View in web browse
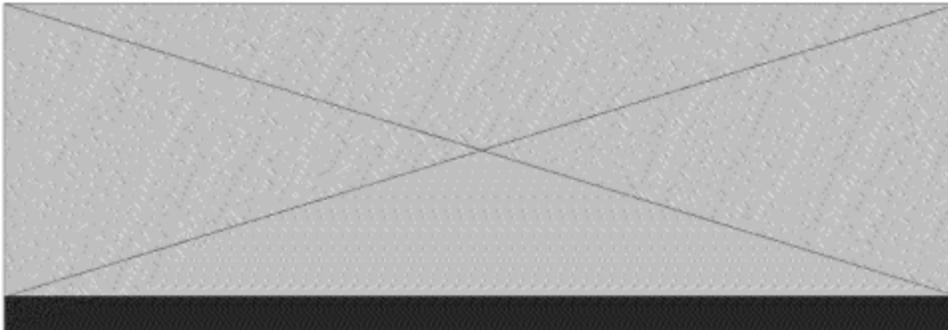

Issue 8, 2013

Wolfram Language and *Mathematica* Included on Raspberry Pi Devices »

We're excited to announce that the Wolfram Language and *Mathematica* will be part of the standard system software bundle for all Raspberry Pi computers. Creating a new path for learning programming and connecting it to the real world, the partnership promises to be a catalyst for education and invention worldwide. Read the official announcement.

Students... Get Certified in *Mathematica* »

Mathematica student certification is now available worldwide. Students who successfully complete the exam will get an official certificate verifying their proficiency. *Mathematica* experience is a skill valued by many employers, so adding certification to your résumé can give you an edge over other applicants. Visit Wolfram Training to review certification guidelines or request an exam.

Save 25% on *Mathematica* and *SystemModeler Home* and *Student Editions* »

Give the gift of Wolfram technology this holiday season and save 25%. Get great deals on personal, non-commercial licenses for *Mathematica* and *SystemModeler*. Plus buy 12 months access to Wolfram|Alpha Pro and get 3 free! Shop for family and friends, or choose something special for yourself, but hurry—holiday pricing ends December 31.

Get a Sneak Peek at Wolfram's Most Important Technology Project Yet »

Recently, Stephen Wolfram announced some very big news about the Wolfram Language and all that it's making possible, including upcoming projects like the Wolfram Programming Cloud, the Wolfram Data Science Platform,

and the Wolfram Publishing Platform. To get the inside scoop on these projects and sign up for release updates, check out "Something Very Big Is Coming: Our Most Important Technology Project Yet."

Wolfram|Alpha Available on BlackBerry »

Wolfram|Alpha computation and knowledge are coming to Blackberry Voice Control users, starting with the 10.2 release of BlackBerry OS. Users of devices like the BlackBerry Z10 and Q10 will now have voice access to Wolfram|Alpha's 10 trillion pieces of human-curated data. Read the full article on the Wolfram|Alpha Blog.

Discover the Inherent Power of the Wolfram Language »

"Programming in the Wolfram Language" is a new training course covering the structures of expressions and evaluation in the Wolfram Language. To learn how this general-purpose, knowledge-based language is covering all forms of computing in a new way, reserve your spot now.
