Subject: Kitchen Flagpole Cabana

Rita (Bilotta Kitchens) is currently working on the quote for the countertops to send with what she has done for the cabinetry.

The standard production time is 12 weeks.

This does not include pre production (color sample production, drawings and elevations approved and signed off) and post production (shipping to St tHomas)

They will only provide plans and drawings once we have accepted their proposal. This will involve paying a 20% deposit. This fee will be applied to order but is non refundable.

Regarding countertops they recommend staying with caesarstone as opposed to the glassos. The glassos is very tricky to fabricate and she does not think anyone in St tHomas will have the capability.

She is sending the quotes for fabrication and installation as she can work with someone in St THomas to do the installation. I asked her to obviously keep the 2 numbers separate and get the quotes to us today.
