Subject: Introducing lower New Jersey rates!

Title: Introducing lower New Jersey rates!

UBER NYC

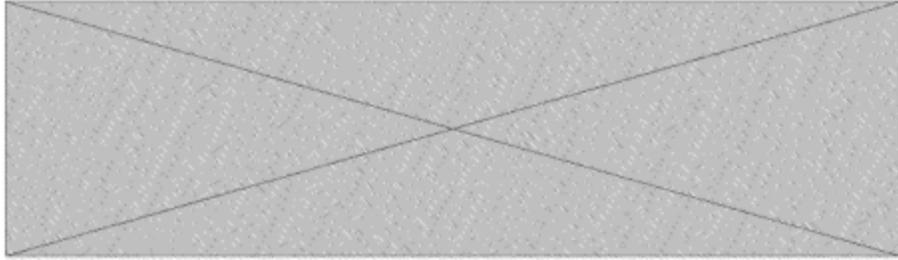

Hey Jeffrey,

Uber has been moving people around New York City since 2011, but going to and from New Jersey hasn't always been as easy. We think it's time to bridge (and tunnel) the gap. ;)

Effective today, **we're lowering flat rates** to from Manhattan to Newark Liberty International Airport, **lowering the New Jersey surcharge**, and introducing new rates for uberX trips beginning in New Jersey.

NEW PRICING

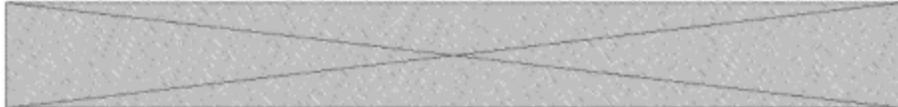

Lower flat rates between Manhattan and Newark Airport

New Jersey surcharge

We've lowered the New Jersey surcharge to \$20. This surcharge will be added to all trips that cross between New Jersey and New York (except trips between Manhattan and EWR) to cover tolls and the driver's return trip. Please note that New Jersey Turnpike tolls will be additional and are not included in the surcharge.

New Jersey uberX rates

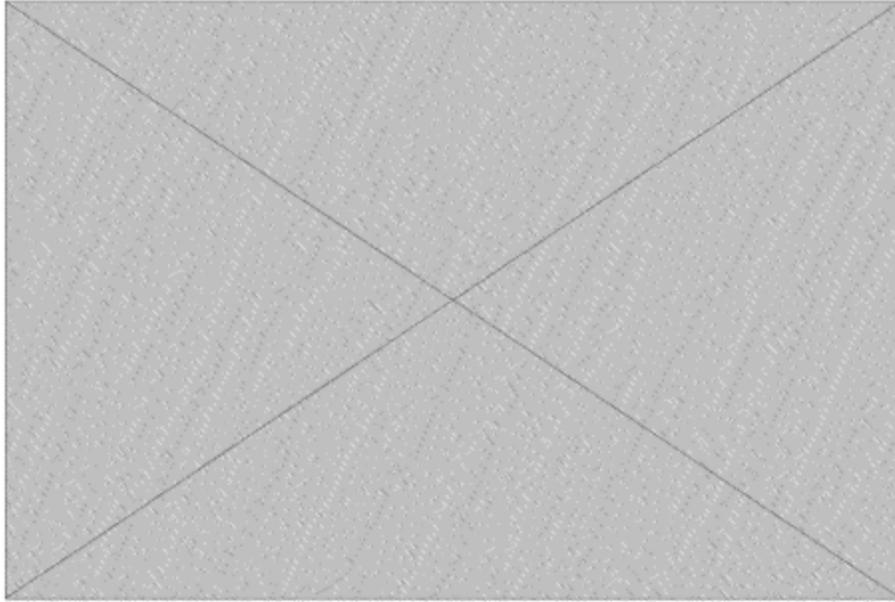

WHAT IS uberX?

In New Jersey, uberX includes ridesharing, offering the Uber reliability you're used to with prices cheaper than a New Jersey taxi. Drivers on uberX have mid-range or hybrid vehicles in a variety of colors and styles, with seating for up to four people.
