Subject: Skype for iPhone - do more every day

Hi there,

There's so much you can do with Skype on your iPhone – from free Skype-to-Skype calls, to sending text messages and even face-to-face video calls. Simply sign into Skype today to start using these and many other features.

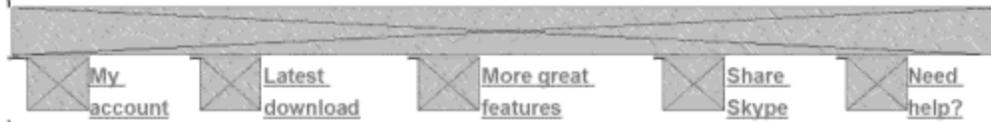

Nice and steady video calling on your iPhone

Our anti-shake feature helps smooth out your face-to-face video calls 1. And with millions of people on Skype there's bound to be someone you can video call. Your friends can be on pretty much any other device and you can chat away happily from your iPhone using both 3G, 4G and WiFi.

Our new features are only available with the latest version of Skype. If you need it - simply download now.

Happy chatting,
Skype

¹Ability to send and receive video depends on your mobile operator's network bandwidth. Anti-shake on video calls using iPhone rear camera only
