Here is the summary of what I am trying to do for KP4:

Budget: \$5M

Goal: Create an all-women's post-op cancer floor, where patients that have just finished ovarian, uterine, cervical or breast cancer surgery will be staying.

The floor will have trained nurses in this type of post-op care. There will be a few private rooms, but most will be semi-private rooms. It will be a floor open to all socioeconomic groups of patients. It will be totally covered by insurance plans, including Medicaid and Medicare. There will be a room on the floor with services such as hair wash, yoga in a chair, physical therapy and psycho-social services. The floor would have a naming opportunity, for example The Epstein Floor for Women, if so desired.
