Thanks [REDACTED].

I'm working through our existing properties, directories, and the .NET site today. I'll provide an update at end of day.

Once I receive the list of sites you posted Forbes on I will get Google to pick those up ASAP so we can see the swap-out occur on our Forbes result.

I'll be available to review the email draft to Henry as well if you want to send that over.

Best

Tyler

Hi Tyler,

The press release is live. I embedded the Forbes article in it. I'll send you a list of where I posted the Forbes link.

Thanks,
