I will call vendor for breakdown of costs as they are a lot higher than indicated to me on phone. They also only spoke about asphalt or concrete when yesterday they said smoothly compacted sand was ok as well.

Hi Richard,

Attached is our proposal for the construction of an AGILE TURF tennis court with fence, lights, and accessories.

I have included options for a two-tone surface with pictures attached. The blue/green court is at a private home in Miami. The two-tone green court is at David Copperfield's retreat in the Bahamas.

The lighting layout I have specified is using (4) poles with the fixtures mounted at 27ft. If you prefer a lower system (21ft. mounting height), add \$9,470.00 for the eight pole system. There is a considerable savings using the higher (4) pole system. Both layouts have the same photometrics. (please see the two lighting attachments)

Please give me a call once you have had a chance to review. I am currently visiting family in upstate N.Y. and can be reached at [redacted] will be in our Miami office from Oct. 11th. through the 14th. and will be back in our Antigua office from the 16th. onward. These tel. numbers are below. Also, please take a moment to visit our website [www.agilecourts.com](http://www.agilecourts.com) to learn more about our proud family business and view some of the over 6,000 professional

courts we have built over the past 41 years.

Best regards,  
Bruce

p.s: I was mistaken.....the court we built over 30 years ago was on Great St. James Island in the U.S.V.I. for a Mr. Kjaer. I don't have a clue whatever happened to him or the court!!
