All going great at work, I love it! I get to be involved in everything that happens in the company. I'm assisting the CEO and I really enjoy working for him! I got a salary increase to £34k a year.... But all I do is work, so personal life not much. I still have the Spanish boyfriend who lives in Romania but I don't want to move back, I really like it here. I want to have at least 3 years experience before moving to another country! He doesn't want to come here so I don't know where this goes... Any advices?
