I communicated the offer of \$45,500(see notes below) to Ramon and he hesitated at this amount as he is looking for \$48,000.

Should I:

a. Hold firm on \$45,500 - possibility of losing him. ( your cost \$49,595)

b. Extend the \$48,000 (\$185 day rate) ( your cost \$52,320)

Market background: My husband hires day captains. Going rate for a boat captain is \$125 a day plus tips. The dynamic captains get \$100 a day in tips. Average captains get \$50 a day in tips. On the open market a good captain would be lucky to get \$200 a day with consistent work.
