September 17: Virtual Conference for Education 2013 »

By joining us for the Wolfram Virtual Conference for Education 2013 on September 17, you'll learn how to use technologies like *Mathematica*, CDF, and Wolfram|Alpha to take your students' learning to the next level. Two simultaneous conference tracks for STEM educators of all experience levels will cover topics on enhancing your classroom and transforming your curriculum.

Never Used *Mathematica* in Your Classroom?

No Problem. Bring It in at a Discount. »

This exclusive offer for community college, technical college, and primary and secondary school educators lets you make your *Mathematica* debut at discounted rates. Whether you're teaching math, physics, chemistry, or biology, *Mathematica* lets you spend more time on the concepts with features like interactive visualization and presentation.

Celebrate 25 Years of *Mathematica* with 25% Off Student Editions »

It's always important to start off each school year with the right tools for the job. In celebration of 25 years of *Mathematica*, students can get their hands on *Mathematica* and *SystemModeler* student editions for 25% off through the end of September.

Making the Grade: Wolfram Demonstrations Now Organized by US Common Core State Standards »

The Wolfram Demonstrations Project is an invaluable resource for educators and students alike, offering pre-built interactive visualizations that can be used to explore a variety of classroom concepts. Demonstrations can now be explored by grade level and Common Core State Standards, making it even

easier to incorporate dynamic content into your lesson plans.

Now Is the Time for 9 »

If you haven't yet made the move to *Mathematica* 9, now is the time to do so. Educators and students alike have been enjoying the new Predictive Interface, system-wide units support, enhanced probability and statistics, integration with R, and newly designed slide show templates in *Mathematica* 9. Upgrade at a discount through the end of September.

Does Your Campus Have a Wolfram Site License? »

Thousands of schools have made the best tools in the business available to their students by licensing Wolfram technologies like *Mathematica*, *SystemModeler*, *Wolfram|Alpha Pro*, and *Finance Platform* across their campuses. Find out if these technologies are available on your campus.

Now Available for Download:

***Mathematica* Summer Camp 2013 Projects »**

The two-week *Mathematica* Summer Camp featured a very bright group of high school students who created and completed their own *Mathematica* projects, ranging from games to detailed scientific visualizations. These projects are now featured at the Wolfram Demonstrations Project, where they are available for download. Check them out today!
