Subject: GIIB

Larry,

I spoke with the GIIB buyer and I think they are willing to raise their offer a little...they were saying "a pound of flesh 10 or 15 thousand dollars". I told them that was not going to get it done, but I felt if they could get close to 500k we could get this done...that is how we left it.

However, we have another buyer out of Miami, JETMARK Leasing. They hit me at 250k this morning, so I told them we had a higher offer on the table and went on to give him a level playing field. These guys seem really interested and may want to come up to PBI to see the aircraft and the logs this week. **Can you please confirm the availability of the GIIB, and also can you get me a current CMP run?**

Finally, the Boeing, our UK Buyer made an offer on Wentworth's Super 27 and they admitted that it was officially rejected this morning, so we are supposed to get an offer on ours today or tomorrow...fingers crossed!
