The new lower side panel is straight forward. It follows the contour of the ledge and is covered in the woven leather.

How can I best help you visualize the proposed ledge modification?

We were prepared to replace the piece of veneer at your seat position to accommodate the switches. We would carefully strip an existing piece of veneer (that would coordinate with the ledge) from the old conference table and seam it outboard of the table lid and the phone lid.

We can not do that with the other ledges, so we can not reposition the switches at the other 3 seating areas, nor can we delete the cup holders.
