Subject: TechNo Mad system final order

Jeffrey,
Techno Mad speaker system you approved was \$14,917.76 (I'd like your approval for additional \$2,212.17 which includes Crossover, EQ, Power conditioner, equip rack),.
TOTAL SYSTEM Cost with Shipping to West Palm Beach FL **\$17,129.93**

I made good contact with an audio File that sold the TechnoMad speakers,.
I assume the source for music payback on the TechnoMadd speakers will be your ipad as a source? correct.
I have consulted with Shawn from TechNoMad speakers to utilize and select the appropriate components best suited to drive the TechNoMadd speakers:

- crossover,
- Equalizer
- furman power conditioner to be used to start the amps,..
- weather/salt resistant rack to hold components.

here are web links for the following additional items, 36% to 50% discount was provided by Shawn on this purchase.

Hello Larry,

These are the items I suggest for you to have a turn-key solution when the shipment lands. If you get everything on this list (in addition to the other items we've already addressed), you will not need anything else:

This is the power conditioner. It would turn your products on in sequence (in 3 groups) so that the amps don't "pop" from being turned on before the mixers (that "pop" is really bad for amps), and then it would power everything off in reverse order. Amps should always come on last, and be turned off first. I use this type of on/off system in the recording studio I own personally.

<http://www.furmancontractor.com/cn-2400s.php>

This is the mixer I suggest. It sounds amazing, and is very reliable. It ships with a rack kit (what you'll see in the photo is front and rear shots of the mixer).

<http://www.fullcompass.com/product/279688.html>

This is the EQ I suggest. It's easy to use, reliable, and has a \$50 rebate too. DBX is a great name. There is not an all-in-1 mixer eq that both simple and reliable that I can suggest, so that's why I recommend components:

<http://www.fullcompass.com/product/398841.html>

This is the crossover I suggest. Rane makes long-lasting products that sound fantastic.

<http://www.fullcompass.com/product/346141.html>

This is the amp for the Berlin's:

<http://www.fullcompass.com/product/399242.html>

This is the amp for the subwoofers:

<http://www.fullcompass.com/common/files/13627-CTS-2-CHANNEL.pdf>

This is the rack I suggest:

<http://www.fullcompass.com/product/384371.html>

The items would sit in the rack in this order, from top to bottom:

Power sequencer/conditioner

Mixer
EQ
Crossover
XTI4002 (Berlin amp)
CST3000 (sub amp)

Necessary connecting cables would all be accounted for on the order and labeled on the receipt as to how they are supposed to connect (i.e. the receipt is important to use as a reference once product is in-hand).

Your discounted pricing would be less than the above prices. Once you verify these items are good to go, I'll redo the shipping quote. All items on the above list are in stock. The speakers would be drop shipped directly to Palm Beach, FL.

Thank you,
Shawn

Referrals Much Appreciated and Welcomed. Thank you!
