Subject: Re: deception

great.. reading assignment : deception, edited by brook harrington (forward by murray) .
genes in conflict , and folly of life, self deception - Robert Trivers, ..
my postulate is that mathematics at its core is "truth:" the search for , the ideal representation ,
the immutable and non changing characters, fixed laws, predictions math is non - time
dependent , Biology , on the other hand is - untruth, deception , evolution , always changing,
time dependent , non predictable (sets up a nice symmetry doesn't it, , -). is the reason that
computers are not alive because they don't yet engage in deception, however , are errors their
first attempt.? winkwink...

Reid, Kevin Slavin and I have started brainstorming about deception more. We're going to do
a session at FOO Camp on it in a week and a half about it to pick the brains of some of the
people there. Will let you know what we come up with. Send anything you think we should
read before then.
