It is only 2 months post investment into research gate. It has a chance to get big and lead 10x return but it will take 3 years pr so to the exit.

Subject: Mission accomplished

Matt,

You gave me the task 3 years ago to become the most important and coolest startup in Germany.

Mission accomplished!

We are getting in average 20 applications for engineering positions per week. Applicants say very clearly in the interviews: I want to work for you! Salary almost doesn't matter.
Every 2nd day we are in print, TV, or radio. I do not share them anymore, but on Saturday we were one page in the süddeutsche etc.

Or just yesterday again on ZDF:
