Subject: Sarahs Apartment

I am not happy at all with the thought of [REDACTED] going into [REDACTED]. When I went to take her luggage there was a USED (full of blood) tampon on her nightstand and a lot of empty bottles of water standing on furniture.

[REDACTED] apartment is our prime apartment with furniture that will not withstand used tampons or bottles that will leave water damage (leather). I want to keep it in good condition for guests that are important to you.

Luckily we put glass tops on the furniture in the other guest apartments for instances such as this.
