the reason i think [REDACTED] is a mess is that she constantly calls steve asking for advice and wanting help meanwhile she is singing a completely different tune to ballmer (do you think she would get such a promotion if she was protesting?)

here's a quote from an article attached below. I think she will want to stay put (= ambitious) which is actually a good thing for her personally and for women in tech.

- And she's not shy about her ambitions. [Via Wired:](#)

when ex-Wired editor Michael Copeland asked Larson-Green about replacing Ballmer at our business conference this past May, she was uncharacteristically blunt. "I wouldn't rule it out, but I'm not in a hurry," Larson Green said. "Give me a year and ask me again."
