Subject: update

Hi Jeffrey and Rich,

The results are a mess. 6 negatives on the 1st page.

I will assist Tyler this month in creating whatever he suggests: fake websites, Huffington press and other things he discussed.

Last month:

- National Review article published and with link to .org site.
- 2 press releases
- Wikipedia article approved. waiting for new citations to be approved.
- website links onto scientists websites (will send list)
- website links on 25 other groups that you donated to (will send list).

Thank you,

[REDACTED]
