Subject: Hello!

Dear Jeffrey!

I hope all is well in your world. It has been such a long time since we have connected. I just want to say thank you for the lessons of the past and what not to fall prey to.

I would really appreciate it if you could contact me directly and let me know if there is anything out of order with regards to our relationship of the past in terms of fair exchange.

Life is showing me a red light once again but this time I appreciate what needs to be done and have a few more tools other than my physical being with which to address the tension and needs driving that force between my polar opposites. I find my self seeking true equilibrium and would appreciate your attention to the checks and balances in relation to what we both aspire to be.

Thank you and best regards,

Francis.
